Employment History

Senior Software Engineer at Infosys

January 2023 – January 2025

- Designed and implemented scalable software architectures that improved application performance.
- Collaborated with stakeholders to translate business requirements into technical specifications.
- Engaged in rigorous testing and debugging processes to enhance software reliability and efficiency.
- Mentored junior developers, fostering a culture of knowledge sharing and continuous improvement.
- Contributed to successful project delivery, consistently meeting deadlines and budget goals.

Senior Fullstack Developer at Rightpoint Consulting

January 2020 – December 2022

- Created and maintained features for a React- and Node.js-based B2C financial application.
- Tracked and fixed bugs and implemented new features using Jira as a reporting tool.
- Led the team in presentations on new and upcoming front-end technologies.

- Worked with the client in a time-sensitive environment on a team of over 100 people.

Front-end Developer at HGV Halo LLC

February 2018 — December 2019

- Provided front-end feature updates as required for an existing AngularJS administration application.
- Worked on a small agile team to take over ownership of an existing internal React component library. Provided updates and bug fixes as requested by internal teams.
- Migrated the React component library project to a new packaging and deployment strategy using Nx and Rollup, a module bundler for JavaScript which compiles small pieces of code into something larger and more complex, such as a library or application.
- Converted the existing codebase of the React component library to TypeScript.

Full-stack Developer at Penrite Oil

January 2016 — November 2017

- Created REST APIs according to the business requirements and implemented them on the website and mobile apps.
- Developed and updated websites using Laravel, Vue.js, and React frameworks.
- Integrated Laravel back-end APIs with mobile applications and the website's front end.
- Created and maintained two websites and two hybrid applications from scratch.

Education

Polytechnic University of Madrid at Madrid

Bachelor degree

March 2012 — November 2015
